

API PHARMA

PHARMACEUTICALS

Engineering & Turnkey Solutions for Pharmaceutical Manufacturing

Jurf Industrial Zone 2, Ajman, United Arab Emirates

+971 58 155 9213

WHO WE ARE

Pharmaceutical trading & engineering company based in Ajman, UAE. End-to-end turnkey solutions for pharma & biopharma facilities — conceptual design through commissioning. Global sourcing of APIs & excipients from USFDA- and EMA-approved manufacturers, backed by the only MOH-approved distributor storage facility for APIs & excipients in the UAE.

MISSION

Compliant, efficient & future-ready pharmaceutical operations — through expert consulting and integrated technical solutions.

— API Pharma Pharmaceutical Solutions —

WHERE WE ARE

Headquartered in the UAE, with branches in Saudi Arabia, Egypt & Algeria — engineering support and material supply across the MENA pharmaceutical market.

4

Countries — UAE · KSA · Egypt · Algeria

1

Headquarters — Ajman, UAE

3

Branches — Saudi Arabia · Egypt · Algeria

ON THE GROUND

WHAT WE DO

Five integrated capabilities behind every API Pharma project.

Pharmaceutical Turnkey Solutions

Conceptual design, engineering & project execution.

R&D, QC & Manufacturing Equipment Supply

Process, packaging & laboratory equipment.

cGMP Consultation & Registration

Regulatory support & product registration.

API, Raw Material & Excipient Sourcing

USFDA- & EMA-approved manufacturers · the UAE's only MOH-approved distributor storage for APIs & excipients.

Vendor Qualification

Auditing & qualifying equipment & material vendors on our clients' behalf.

OUR NETWORK

Pharmaceutical comprehensive solutions, delivered with specialist partners across Europe, China & India.

TURNKEY PROJECTS

Concept to commissioning — conceptual & detailed engineering, MEP, cleanroom construction, process equipment & filling lines, with our European & Chinese partners.

01 CLEAN ROOMS

- Built to ISO 14644 & EU GMP Annex 1
- Classification ISO / EU GMP Grade A–D
- Modular wall, ceiling & flooring systems
- Airlocks, pass boxes & material transfer
- Epoxy & seamless vinyl flooring
- Validation-ready documentation & qualification

02 HVAC SYSTEMS

- Pressure cascade & air change rate control
- Precise temperature & humidity control
- Material & personnel flow design
- Conceptual & detailed engineering packages
- GMP compliance review at design stage

03 MEP & CLEAN UTILITIES

- WFI, purified water & clean steam
- Compressed air & nitrogen systems
- Electrical distribution, BMS & instrumentation
- Fire detection & life-safety systems
- Single-source MEP integration

PHARMA PROCESS MACHINERY

Aseptic filling & glass-lined process equipment from our European & Indian solution partners.

01 ASEPTIC FILLING LINES & ISOLATORS

STERILINE · ITALY

- Pre-filled syringe (PFS) lines
- Cartridge & vial filling lines
- Blow-fill-seal (BFS) technology
- Isolators & RABS, H₂O₂ / VHP decontamination
- Turnkey line: washing to capping

02 GLASS-LINED REACTORS & VESSELS

STANDARD ENGINEERING · INDIA

Glass-Lined Reactor

Glass-Lined Receiver

Glass-Lined Storage Tank

Glass-Lined RCVD

Engineering design, project execution, installation, commissioning & validation support.

03 SUPPLY, INSTALLATION & COMMISSIONING

- Formulation & API process equipment sourcing
- Installation supervision & site integration
- Commissioning & qualification (IQ / OQ) to handover
- After-sales coordination with manufacturers

PROCESS EQUIPMENT EXCELLENCE

Advanced process & bioprocessing equipment for biopharmaceutical and API manufacturing — sourced through our global manufacturer collaborations, supported from installation through commissioning.

01 BIOREACTORS

- Stainless steel & single-use systems
- Microbial & cell culture applications
- Established global manufacturers
- Installation through commissioning

02 TFF — TANGENTIAL FLOW FILTRATION

- Concentration & diafiltration
- Clarification in downstream processing
- Integrated into the full process train
- Gentle, low-shear separation

03 DISC CENTRIFUGE SYSTEMS

HUADING · CHINA

- High-throughput clarification & cell harvest
- Disc-stack, decanter & tubular centrifuges
- Custom separation systems

DOWNSTREAM SOLUTIONS

Filtration & microbiology solutions for critical process applications.

01 FILTRATION

BEA TECHNOLOGIES · ITALY

- Cartridge Filters
- Capsule Filters
- Membrane Filtration
- Liquid, Air & Gas Filtration Systems
- Filter Housings
- Process Consumables

02 MICROBIOLOGY

CPC BIOTECH · ITALY

- Sterility testing & environmental monitoring media
- Unique ID number per bottle
- Click & Safe lockable plates
- Room-temp (15–25°C) & cold-chain delivery
- Packaged to minimize bioburden
- Rapid sterility testing technologies for accelerated release

API, EXCIPIENT & RAW MATERIAL SOURCING

Connecting manufacturers to a global network of USFDA- and EMA-approved suppliers — with quality, traceability and regulatory standing assured on every material.

**THE
ONLY**

MOH-approved distributor storage facility for APIs & excipients in the UAE

A distinction reflecting our commitment to quality, compliance and product integrity across the supply chain.

01 GLOBAL MANUFACTURER PARTNERSHIPS

APIs

Active pharmaceutical ingredients from USFDA- & EMA-approved manufacturers

Excipients

Pharmaceutical-grade excipients for formulation

Raw Materials

For formulation & API manufacturing

Documentation

CoA, regulatory & dossier references — full support

02 MOH-APPROVED STORAGE FACILITY

MOH-licensed

Storage for APIs & excipients

Controlled zones

Temperature & humidity

GDP-aligned

Warehousing & handling

Full traceability

Receipt through dispatch

Vertical 02 — together with our Turnkey Projects division, API Pharma supports manufacturers at every stage: from the design of a facility to the sourcing and safe storage of the materials produced within it.

CAPABILITIES IN ACTION

WHY PARTNER WITH API PHARMA

- Single-window solution — engineering, execution & material supply under one roof
- In-house engineering & scientific team spanning HVAC, cleanroom, MEP & process equipment
- Collaborations with globally recognized pharmaceutical equipment manufacturers
- Access to USFDA- & EMA-approved API and excipient manufacturers worldwide
- The only MOH-approved API & excipient distributor storage facility in the UAE
- Regional footprint — UAE, Saudi Arabia, Egypt & Algeria

Partner With Us
